

## Product Specification Sheet

### Targus Podium CoolPad® Part #: PA241U

#### Product Description:

The Podium CoolPad® raises the back edge of your notebook to increase airflow, improving the cooling efficiency of your notebook, doing wonders for your mobile work environment! The CoolPad® also allows a 360-degree rotation of your notebook, making it ideal for small presentations, while the six small rubber pads on the bottom provide a tight grip, ideal for air travelers. Offering more than just ergonomic benefits, the CoolPad® also protects your furniture from heat damage, and your notebook from liquid spills!

#### Product Features and Specifications:

- **Prevents overheating:** Prevents your notebook from overheating; the more air under the notebook, the greater the heat dissipation, and the cooler your notebook runs
- **Protect your furniture:** Protects furniture from heat damage; protects notebooks from liquids spilled on work surface
- **Ideal for presentations:** Pivots your notebook 360 degrees so others can see the screen
